The event will take place inside the Tribute Museum

Guest speaker/performer: Dr Nicole Forsyth, University of Sydney

Dr Forsyth (Sydney Conservatorium of Music, The University of Sydney) has been researching the music manuscripts of *Dunera* refugee Max-Peter Meyer, with funding from Creative Australia (formerly The Australia Council for the Arts). Nicole's father, Dr James Forsyth was entrusted with these manuscripts by Ossi Wolkenstein, with the aim of performing and making them heard again. At the Sydney reunion, we will be playing excerpts from Meyer's Piano Quartet in C Major, composed in Tatura Internment Camp, 1941. These are part of a longer *Dunera Mass* dramatized concert, told by a narrator, choir and a piano quartet of professional instrumentalists. This longer show will be performed at the Hay and Tatura reunions in September 2024 & April 2025, and also in November 2024 as part of the State Library of NSW's new exhibition "*Dunera: Stories of Internment*".
